

EN:

KERALIT® Keralysin-Salbe For gentle removal of scabs and crusts.

KERALYSIN quickly and gently removes scabs and crusts. Concealed pathogens can then be treated effectively.

Instructions:

*Clean skin area before application. Remove any loose crusts. Apply **KERALYSIN** 1-2 times daily, lightly massaging into skin. Carry out additional disinfection measures if appropriate.*

*Keep skin area dry. Observe hygienic stable conditions. **KERALYSIN** works ideally in tandem with **KERALIT DERMACURE**, a salve specially developed for brittle skin.*

FN-ADMR: 2 days

Keep container tightly closed after using. Keep in a cool, dark place. Use by:
